

RAMESHWAR TIWARI

Full-Stack Software Engineer | AI / GenAI

Mumbai, India | +91 9026767618 | rameshwar.kes@gmail.com | [GitHub](#) | [LinkedIn](#)

SUMMARY

Full-Stack Software Engineer with 2+ years of experience building and deploying production SaaS applications using React, Next.js, Node.js, and TypeScript. Experienced in scalable multi-tenant architecture, AWS infrastructure, background processing, and RBAC, along with AI/GenAI application development including RAG, vector search, and LLM integrations. Independently designing and building an AI-driven media-verification product end to end.

SKILLS

- **Core Stack:** TypeScript, JavaScript (ES6+), React.js, Next.js, Node.js, Express.js, Prisma ORM, SQL, REST APIs
- **AI & GenAI Integration:** RAG architecture, Pinecone, pgvector, vector/semantic search, LLM API integration, prompt engineering, Claude Code (AI-assisted development workflows)
- **Cloud & DevOps:** AWS (EC2, RDS, S3, SQS, Amplify), Docker, Nginx, CI/CD, Git/GitHub/GitLab
- **Architecture & Data:** Multi-tenant SaaS, RBAC/ABAC, System Design, MySQL, PostgreSQL, MongoDB, Redis, BullMQ, n8n, Socket.io

EXPERIENCE

- Software Engineer** — AdsCult Private Limited, Mumbai

Feb 2025 – Present

 - Architected and delivered a multi-tenant Enterprise CRM from scratch spanning **5 modules** — Lead Management, KPI Tracking, Project Management, Attendance, and Payroll — using TypeScript, React, Next.js, Node.js, and Prisma ORM on MySQL, deployed across multiple enterprise client accounts.
 - Designed the multi-tenant data model and access layer, enforcing database-level tenant isolation and preventing cross-tenant data access, with configurable RBAC.
 - Built **Courier Hub**, an e-commerce logistics platform managing order processing, invoicing, and multi-account shipping integration, with built-in data analysis and reporting.
 - Provisioned and managed AWS infrastructure (EC2, RDS, S3, SQS, Amplify) with Nginx as reverse proxy for deployment and scaling; implemented RAG-driven retrieval using Pinecone and pgvector for semantic search.
 - Introduced BullMQ + Redis for background job processing, improving system responsiveness by **~40%**; automated recurring SEO content workflows using n8n.
- Full Stack Developer Intern** — Prabhavti Digital Services, Mumbai

Jan 2024 – Jun 2024

 - Built MERN stack applications and added automated tests around authentication flows, cutting production bugs by 30%; integrated payment gateway REST APIs, validated with Postman.
 - Improved React performance through lazy loading, code splitting, and Redux Toolkit state management in an Agile team environment.
- Web Developer Intern** — Webriver Solutions, Mumbai

Aug 2023 – Dec 2023

 - Developed responsive, mobile-first web applications using HTML5, CSS3, JavaScript, and PHP; wrote automated QA testing scripts and improved UI/UX based on user feedback.

KEY PROJECTS

- Vashix (vashix.com)**

 - A photo/video verification platform that hardware-signs every capture at the moment it's taken, sealing who took it, where, when, and that it hasn't been edited since — verified against the C2PA 2.1 provenance standard.
 - Trust Score engine (0–100) combining device attestation, GPS integrity, and liveness signals, backed by an Android SDK and a multi-tenant SaaS architecture with teams, roles, and API keys.
- Real-time Task Management System** | *React.js, Node.js, Socket.io, MongoDB*

 - Built a collaborative task platform with Socket.io for real-time sync and role-based access control.
 - Enabled admins to assign tasks and track live employee progress across teams from a single dashboard.
- EtherPay — Blockchain Payment Application** | *React.js, MetaMask, Etherscan API*

 - Built a decentralized application for Ethereum transfers with MetaMask wallet integration for secure, non-custodial transactions.
 - Implemented real-time transaction tracking via the Etherscan API for on-chain transparency.

EDUCATION

Bachelor of Science in Information Technology — KES Shroff College, Mumbai | 2020 – 2023 | CGPA 9.0/10.0 | Best Project Award

CERTIFICATIONS

Claude Code in Action — Anthropic Education (2026) | Problem Solving (Gold Badge) — HackerRank
